

## Newsletter #5

### Target for 2050: 60% Carbon Cut!

The Covenant of Mayors - East Board adopted new climate goals, signaling stronger regional commitment to climate action.

The infographic is contained within a white rectangular box with a thin teal border. In the top left corner, there is a teal cloud shape containing the text "new GHG goal". The main text is "60% REDUCTION" in large teal font, with "60%" being significantly larger than "REDUCTION". Below "60% REDUCTION" is the text "from a 1990 baseline". To the right of this is a teal arrow pointing right, followed by the text "by 2050" in large teal font. A small teal asterisk is positioned above the "60%" and another below the "2050". At the bottom right of the box, there is a teal asterisk followed by the text: "The new targets will apply to new signatories while existing members will maintain their current 2030 commitments with encouragement to align with the new goals." A large teal curved shape is visible on the right side of the box, partially overlapping its border.
